- 未標註學分者皆為 3 學分。標示*者「此為具潛在危險性課程,修課學生應注意課程學習安全,並請評估投保本校學生平安團體保險或其他商業保險。」
- 本系最低畢業學分為 140 學分(含通識教育課程 31~33 學分、專業必修 70 學分、專業選修 24 學分)。
- 全英語組修課規定:本系專業必修應修習全英語課程(「機電工程概論」()學分、「機電實務專案」()學分除外),及本系專業選修 24 學分中至少選修 5 學分全英語課程,專業必修課程第三次修習始可改修一般生之該課程。
- The course without signing credits beside is 3 credits. The one with "*" above is an alarm that this course has potential risk, so students should notice learning safety and assess whether they need to buy our students safety insurance or other commercial insurance.
- The lowest required graduation credits in our department is 140 credits. (including general educational courses 31 to 33 credits, professional required subjects 70 credits, and professional elective subjects 24 credits)
- EMI Program Regulation: Professional required subjects are required to be English-taught courses (Except for "INTRODUCTION TO MECHANICAL ENGINEERING" and "PRACTICE AND PROJECT IN MECHANICAL AND ELECTROMECHANICAL ENGINEERING") and 5 of 24 professional elective subjects credits are required to be English-taught courses. If it is the third time to retake professional required subjects, student is allowed to take Chinese-taught courses.

標註灰色之專業選修為 109 及 110 年學年度已開課之課程。

Professional Elective Subjects with gray marks are the courses opened in 2020/2021 and 2021/2022 academic year.
